International Space Summit

About ISS 2025

Empowering Space Through Enhanced Collaboration
Welcome to the International Space Summit 2025!

Greetings!

It is with great pleasure that we invite you to the International Space Summit (ISS) 2025, organized by CONTEC Space Group.

「ISS 2025」 marks its third annual event as an international space conference, and this year, it celebrates Aerospace Day (May 27th), newly established last year in commemoration of the creation of the Korean AeroSpace Administration (KASA). Co-hosted by CONTEC Space Group and Daejeon Metropolitan City, the conference will take place from June 3rd to June 5th at the Daejeon Convention Center (DCC) to further the leadership of K-New Space.

Daejeon Metropolitan City serves as the heart of South Korea's space industry cluster and a hub for research and talent development.

The city is home to numerous government agencies, research institutions, and companies, including the Defense Acquisition Program Administration, the Agency for Defense Development, the Korea Aerospace Research Institute, and the Korea Astronomy and Space Science Institute, all contributing to space research and workforce development. Additionally, the aerospace sector plays a key role in Daejeon's six strategic industries *ABCD+QR, which the city is actively promoting.

* ABCD+QR : Aero space, Bio, Chip, Defence, Quantum, Robot

Under the theme "Empowering Space Through Enhanced Collaboration, 「ISS 2025」 will focus on exploring the future direction of South Korea's space industry through global cooperation. This event will provide an excellent opportunity to expand networks and share innovative ideas and technologies, bringing together leading space companies, institutions, military users, universities, and startups.

Spanning three days, the event will feature a variety of programs, including an opening ceremony, keynote speeches, expert panel discussions, and exhibition booths showcasing the latest trends in the global space industry. 「ISS 2025」 promises to be a pivotal platform for discovering the new possibilities of South Korea's space industry and advancing global space collaboration.

We invite you to join us on this journey to shape the future of space innovation. Let's work together to open a new era of space exploration and advancement.

Thank you.

Lee Sung Hee

Chairman, CONTEC Space Group **Dr. Sunghee Lee**

Information

Event	International Space Summit (ISS) 2025	
Dates	June 3rd (Tue) - 5th (Thu), 2025	
Venue	Daejeon Convention Center(DCC), Exhibition Hall 1 (Entire Hall)	
Organized by	CONTEC Space Group	
Opening Ceremony Special Guests (Preliminary)	Opening Speech	Dr.Sunghee Lee, Chairman, CONTEC Space Group
	Welcome Message	Jang Woo Lee, Mayor of Daejeon Metropolitan City
	Congratulatory Message	Jeong Ah Hwang, Member of the National Assembly
		Jong Gun Seok, Minister of Defense Acquisition Program Administration
		TBA, Administrator of Korea AeroSpace Administration
		Geon Wan Lee, President of the Agency for Defense Development
	Keynote Speech	John Lee, Vice Administrator of the Mission Directorates, Korea AeroSpace Administration
Program	· Special Guest Keynote Speech · 15 Sessions featuring presentations and discussions by over 70 companies · 60+ Exhibition Booths · Startup Pitching Sessions	
Side Events	· Opening Ceremony, Luncheon and Networking Dinner · B2B/B2G Business Matching Programs · Pop-up Store, Lucky Draw Events

Booth Specifications

Platinum Booth

The Ultimate Partnership in the Space Industry

Platinum Sponsorship

The Platinum Tier is the ultimate choice for top-tier partnerships in the space industry, offering unparalleled brand featured and recognition. Your company's logo will be prominently placed across all key event materials, ensuring maximum visibility throughout the conference. The exhibition booth provided will be the most spacious and strategically located, allowing for optimal engagement with attendees. Additionally, Platinum sponsors will have exclusive networking opportunities with global space industry leaders and priority access to key event programs as official sponsors. This tier is the perfect opportunity for companies looking to establish themselves as industry leaders on a global scale.

* Printing sizes will be individually communicated.

* Booth design is subject to change based on the organizer's discretion.

Premium Double Booth (6x6 sqm)

- Additional Booth Space Option available
- Option to custom to an Independent Custom Booth
- Docent Tour Opportunity
- Booth backwall printing
- Exclusive Large Ceiling Banner Provided in the Exhibition Hall
- 40(inch) Display
- X-banner

Facilities Provided

- Double Outlet / 1 kW Power Supply
- Spotlight Lighting
- Info Desk
- Chair (8) & Table (2) Provided

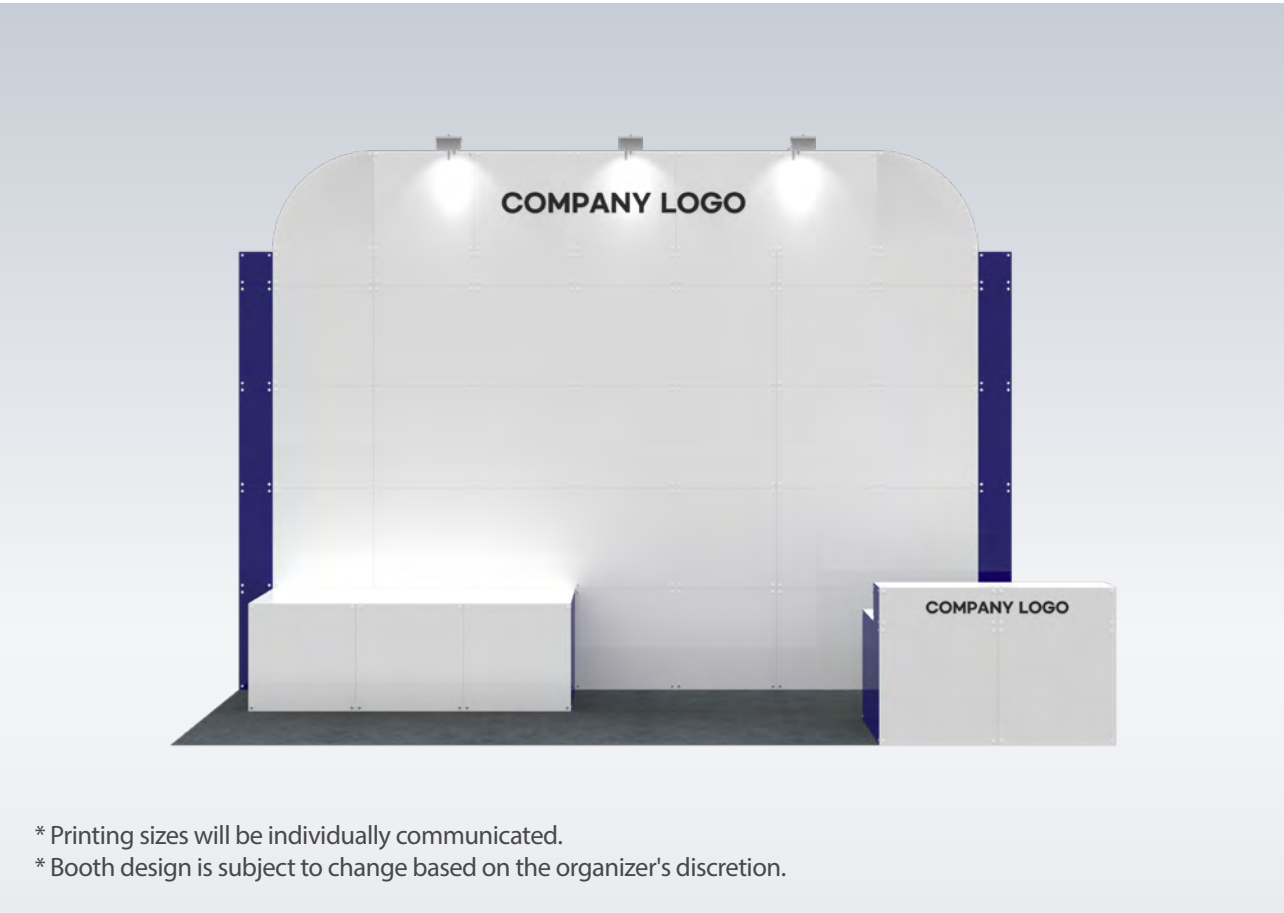

Booth Specifications

Diamond Booth

A Strategic Choice to Expand Innovation and Influence

Diamond Sponsorship

The Diamond Tier provides an exceptional opportunity to showcase your brand effectively to the global space industry. With a spacious booth in a prime location, your company can highlight its technological expertise while benefiting from exclusive, high-level networking opportunities. Additionally, your logo and messaging will be prominently displayed throughout key sections of the event, ensuring maximum visibility and a powerful promotional impact.

- Premium Booth (6x3 sqm)**
- Additional Booth Space Option available
 - Option to custom to an Independent Custom Booth
 - Docent Tour Opportunity

DCC
Daejeon
Convention
Center

Exhibition Hall 1

Daejeon is widely recognized as a hub of science, technology, and national defense, making it the perfect location for ISS 2025. The city is home to key aerospace and research institutions, including the Defense Acquisition Program Administration (DAPA), the Agency for Defense Development (ADD), the Korea Aerospace Research Institute (KARI), and the Korea Astronomy and Space Science Institute (KASI). These institutions, along with research centers, universities, and leading technology companies, foster innovation and industry collaboration.

Additionally, Daejeon's proximity to Gyeryongdae, the headquarters of the Army, Navy, and Air Force, strengthens its strategic role in the advancement of defense and space technologies. This solid scientific and defense infrastructure makes Daejeon Convention Center (DCC) an ideal venue for hosting international events like ISS 2025.

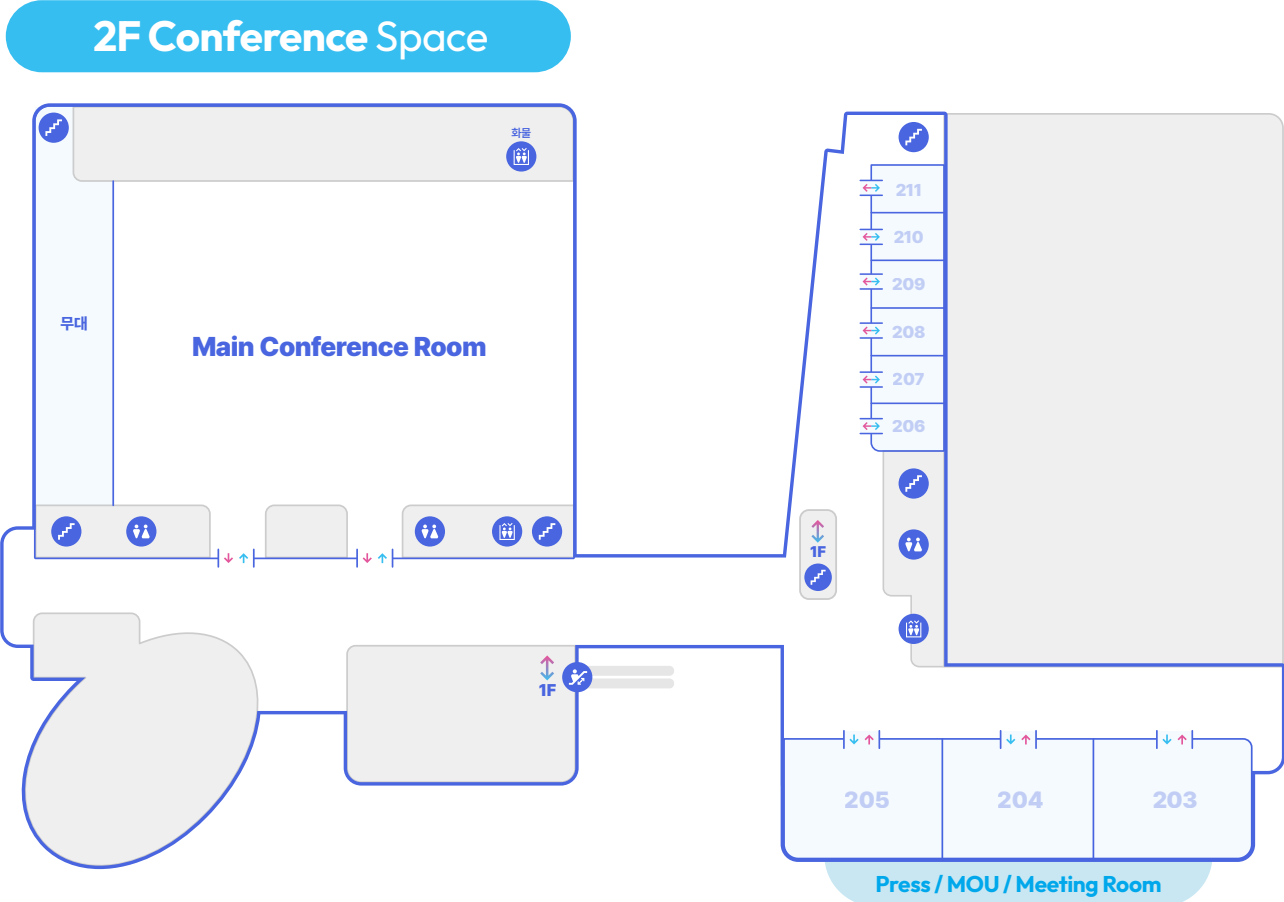

Beyond its technological and strategic advantages, DCC also offers excellent accessibility and a rich surrounding environment. Located nearby are Hanbit Tower and Gapcheon, iconic landmarks from the successful 1993 Expo, as well as Hanbat Arboretum, a green oasis known for its vibrant landscapes and tranquil atmosphere. Additionally, DCC is conveniently situated near luxury accommodations, a mega shopping complex, and other leisure facilities, ensuring a comfortable and well-rounded experience for attendees.

With its strong technological foundation and comprehensive infrastructure, DCC provides an ideal setting for academic exchange and industry collaboration. ISS 2025 will leverage Daejeon's unique strengths to drive innovation in the global space industry, creating an impactful event that shapes the future of space exploration and technology.

About the ISS 2025

Organizing Committee

The International Space Summit brings together industry leaders to explore the present and future of the space industry. As a key platform, ISS focuses on sharing the latest trends and fostering sustainable cooperation, offering participants diverse opportunities in technological innovation, business collaboration, and policy discussions.

With the aim of promoting sustainable growth and global cooperation in the space sector, the conference features trend-focused sessions, exhibition booths, and networking dinner events. These programs provide participants with in-depth expertise and new business opportunities, making it the ideal environment to navigate the evolving landscape of the space industry.

At the heart of this success is the International Space Summit (ISS) Organizing Committee. This dedicated team was established to ensure the seamless execution of the conference, meticulously overseeing every stage from planning to implementation. By leading the advancement and collaboration of the global space industry, the committee is committed to providing participants with a smooth and enriching experience.

With expertise in administrative support, sponsor promotion, participant management, and on-site operations, the committee ensures excellence across all aspects of the event. Our ultimate goal is to establish ISS as a premier global space conference, representing the forefront of the industry.
