INTERNATIONAL SPACE SUMMIT 2024
New Horizon of Cooperation

Foreword

Firstly, I wish your organization (company) continued success and growth. I am pleased to share with you the achievements of the International Space Summit 2024 (ISS 2024), which was held in Seoul last June.

The International Space Summit 2024 (ISS 2024) was successfully held from June 11th to 13th 2024, at The K-Hotel in Yangjae-dong, Seoul. The event was attended by 1,434 space industry experts, scientists, researchers, business leaders, and government officials from 34 countries.

The conference included keynote speeches from 3 experts, 13 sessions with 60 presentations and panel discussions that provided insights into the latest trends in the space industry. Participants explored the prospective collaboration opportunities in the future space market through various events, such as the networking reception, luncheons, and exhibition booths, which opened new horizons for international cooperation in the space sector. We sincerely thank all the domestic and international participants for their support and active participation which greatly contributed to the success of ISS 2024.

The 「ISS 2025」 event next year is scheduled to be held from June 3rd to 5th, 2025, in Daejeon, a leading economic hub. Daejeon is at the center of South Korea's space industry cluster, bringing together space-related institutions such as the Defense Acquisition Program Administration, Agency for Defense Development, Korea Aerospace Research Institute, and Korea Astronomy and Space Science Institute, as well as universities and companies. Additionally, it is located near Gyeryongdae, the headquarters of the Army, Navy, and Air Force, which represent the demand for defense space power.

We would like to express our heartfelt gratitude for your organization's (company's) great interest and support for "ISS 2024", recognized as an international space conference leading the New Space era and contributing to the development of South Korea's space industry ecosystem. We look forward to an even greater interest and participation in next year's "ISS 2025".

Thank you.

2024. 9. 10.

ISS 2024 Committee Chair, CONTEC CEO Dr. Sunghee Lee

	Session 4	Space Consultancy / Suitability	Session 9	GSaaS	Lucky Draw	
	Lucky Draw		Official Formal Dinner		Ending Keynote / Closing	
18:00 ~21:00						

▪ Event

- Day 1 : Opening Ceremony Performance - Media Performance on Korean traditional Percussion instrument (Team GORI)
- Day 2 : Official Formal Dinner Performance 1 - Fusion Korean Traditional Music (Team Yeobaek)
- Day 2 : Official Formal Dinner Performance 2 - Jazz Band (Team Four Seasons)
- All day : Operation of a tasting booth for CONTEC’s character bread (Mete Bread) and Korean traditional makgeolli

▪ Exhibition Booths (Total 17 Companies Participated: 8 Domestic / 9 International)

- Exhibition Booths (Total 17 Companies Participated: 8 Domestic / 9 International)
- Ground Station Sector: 4 Booths (CONTEC, KSAT, and 2 other companies)
- Other Sectors: 8 Booths (Launch Vehicles, Payloads, Antennas, Communications, etc.)

Key Achievements

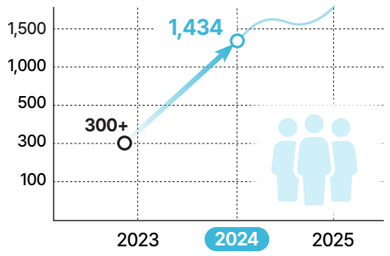

▪ Participation Scale

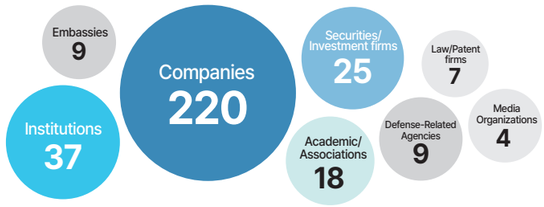

∘ Participation Status : 34 countries with 1,434 participants (total attendees), with 74 speakers/moderators from 22 countries

- 378% increase compared to the previous year (approximately 300 participants to 1,434)
- 74 speakers from 22 countries attended (including 3 keynote speakers, 60 presenters, and 11 moderators)

∘ Participating Companies : 360 institutions/companies from around the world participated

- 220 companies, 37 institutions, 31 universities, 25 securities/investment firms, 18 academic/associations, 9 embassies, 9 defense-related agencies, 7 law/patent firms, and 4 media organizations

▪ Networking Opportunities Provided

∘ Exhibition Booths

- First-time booth operation at ISS, VIP tours, and creation of promotional opportunities for companies connected through networking.

∘ Meeting Spaces Provided

- Operation of an open meeting room (Geumgang Hall) connected to the main event hall, facilitating participation in events and meetings at exhibition booths → Activation of a virtuous cycle of networking leading from event participation to meeting room interactions
- Diversification of meeting spaces with the operation of a separate reservation-based VIP meeting room

▪ Press Releases

∘ A total of 18 press releases from 7 companies

- Seoul Economic Daily, 11 (including 1 print report) / Korea Economic Daily, 2
- Maeil Business Newspaper, JoongAng Ilbo, Digital Daily, Digital Chosun, Chosun Biz, 1 each

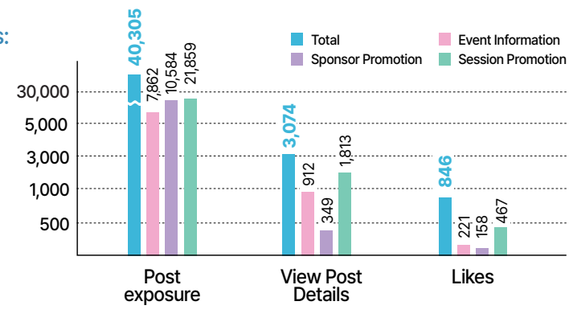

▪ SNS Promotion

Analysis results of 26 posts and 95 reposts:

total of 40,305 exposures achieved with zero negative comments

Uploading posts → Exposing posts to users → Reposting, creating a virtuous cycle of event promotion and spreading positive experiences

(Analysis Period : '23. 11. 21. ~ '24. 6. 25.)

▪ MoU Signing

∘ MoU Signed : A total of 8 MoUs signed

CONTEC: Signed with a total of 7 companies from 7 countries / Domestic company: 1 (CES)

- Simultaneously conducting the event and creating an effect of expanding business opportunities through efficient collaboration in technology and information exchange with partners

▪ Survey

∘ Survey Results: 196 responses (155 domestic / 41 international)

- 93% of participants expressed high satisfaction with the session topics and content: 78% expressed satisfaction with the panel and presentation times

  In particular, there were numerous positive regarding the Korean Space Defense/ Application session
- Request to adjust the session start time for the next event (09:00 → 10:00)
- 91% of 196 respondents

Satisfaction with the session topics and content

Smooth Networking
In particular, there were numerous positive regarding the Korean Space Defense/ Application session

Overall Event Satisfaction
Both the session presentations and panel discussion were highly impressive

Most Popular Session
Defense Space: The session related to defense space was particularly interesting

Unique Creativity of ISS
The innovative and tasty "CONTEC character bread" received positive feedback from visitors as a creative element.

▪ Event

- A well-structured program received praise from international participants and fostered a lively, harmonious conference atmosphere

  In particular, the morning performance, the focus on the opening event and the enjoyable content received significant praise
- The provision of various K-Food received positive feedback from international attendees: buffet and formal western-style meals were served across three lunches and one dinner
- CONTEC character bread served as the event's mascot, providing a special treat and joy to both domestic and international attendees

What were the shortcomings?

Overlap with other events

The event coincided with the Korea Institute of Military Science and Technology's Annual Conference (June 12-14, 2024, Jeju Island), leading to low participation from defense and space-related institutions and key personnel.

No participation from major domestic defense and space-related companies due to budget issues

Due to the lack of budget allocation in the previous year's business plan, major domestic defense and space companies did not participate in the exhibition booths. This led to some international companies raising concerns or asking questions about the involvement of the host country's space agency and large corporations

ISS 2025 Planning

▪ Overview of "ISS 2025" Event

- Event Name : 「International Space Summit 2025(ISS 2025)」
- Date : June 3rd (Tue) - 5th (Thu), 2025
  - Very timely, given the establishment of "Aerospace Day" (May 27) as a national holiday.
  - Considering the possibility of hosting the event in conjunction with EuroConsult's ASBW (Asia Satellite Business Week) event (under review).
- Location : Daejeon Convention Center (DCC), Daejeon, South Korea
- Program : Opening Ceremony / Conference / Invitation-Only Formal Dinner / Exhibition Booths (30 booths)

▪ Expected Effects

- Daejeon is a central hub where national defense and space-related central government agencies, government-funded research institutions, space companies, and universities gather. It provides networking opportunities among related institutions, promoting collaboration and innovation.
- Hosting the event in Daejeon, where space-related defense agencies are concentrated, and with the support of the city of Daejeon, is expected to expand the number of participating countries, organizations, and the overall scale of the event.
  (In particular, there is an expected increase of participation from international space agencies and companies)
- Attendance and presentations by global space industry experts, along with expert discussions, will contribute to the growth foundation of South Korea's space industry and the development of the space industry ecosystem

Conclusion and Recommendations

The 2nd International Space Conference, "International Space Summit 2024," was successfully concluded with the participation of 1,434 attendees (a 378% increase compared to the previous year) from 34 countries, including 359 space agencies, companies, research institutes, universities, and major law firms such as Kim & Chang and Yulchon.

To this end, we recommend including "ISS 2025" in next year's business plan as a platform for enhancing South Korea's New Space capabilities and creating business opportunities. We encourage your organization (company) to actively participate by planning for an exhibition booth at ISS 2025" in the upcoming year.

SEE YOU NEXT YEAR!

International Space Summit 2025
